We celebrated the holidays with concert events

Having made a name for itself with its series of free concerts open to the public in the bazaar of the marina with the traditional name "Teos Marina Thursday Concerts" for the last 3 years, Teos Marina brought a breath of fresh air to the

entertainment this year due to the importance it attaches to public health and social distance rules during the Covid-19 epidemic days. So this year's first concert was held at sea on 1 July Maritime and Cabotage Day.

Kurtalan Express rocked the stage which was on the second floor of a tour boat anchored in the middle of the Marina. The sailors watched the concert sitting on their yachts. Teos Marina Çarşı visitors also watched the concert from café and restaurants. Music lovers who are far from Siğacık also witnessed this enthusiasm live on Teos Marina's social media accounts.

Tanıl Tuncel presents a display reflecting a corridor of history

A documentary of the blessed journey from Bodrum to Samsun of Turkey's first and only sail training ship STS Bodrum School Ship in 2019, the 100th anniversary of national struggle, met with the audience for the first time in Teos Marina. The screening of the documentary was made with the presentation of the sailor Tanıl Tuncel, who made a world tour with the sailing boat Kelebek in the Garden of Eden, exclusively for the residents of Teos Marina.

Telling the story of his and his sailor friends on the STS Bodrum School Ship, Tanıl Tuncel stated that they both witnessed and made history during Atatürk's Samsun route.

Art friendship becomes immortal

The friendship project carried out with Teos Marina and ceramic artists blossoms forth. We are happy to support art and artists to add value to Sığacık and to exhibit their works permanently in our Teos Marina Bazaar. With their ceramic works, participants from various places in Turkey contributed to the project. The works will decorate the walls all over Teos Marina. We continue to take this as a mission of Teos, which has been a city of art since ancient times.

Teos Marina is ready for emergency

Within the scope of the emergency response plan against a possible dangerous situation, a realistic exercise was conducted by competing with time in Teos Marina. With the participation of manager Müge Bıyıklıoğlu from Meke Marine, both theoretical and practical trainings were held with the collaboration between Teos Marina staff and Meke Marine Technology Inc. During the training, as per the scenario, fuel oil was poured into the sea from a boat. The Emergency Response team arrived at the scene with the necessary materials. The barrier was laid to the sea, preventing the oil spill from spreading. After the barrier was built, the material to be used in

cleaning the oil leaking into the sea was installed in a short time.

The oil spill accumulated on the sea surface was drawn to the temporary storage pool with the vacuum surface cleaning pump and the sea surface was cleaned from the oil leakage. In the last phase of the drill, the wastes drawn from the sea were brought to the Teos Marina solid waste field and taken to the waste tanks there.

Teos Marina once again demonstrated its readiness for urgent intervention against any dangerous situation with successive trainings and exercises on security, fire and environment.
