GALLEY RECIPES

Practical recipes that can be easily cooked on the boat and enjoyed.

Message from CMM

FARUK GÜNLÜ

Teos Marina General Manager

Dear sailing friends,

Hooray! Summer is here. It's the season of shorts, flip-flops, and T-shirts. No more worries about whether it will rain in the morning, if it will be too cold, or how long the storm will last. Until September, carefree days filled with sunshine, holidays, and the sea...

Our stable north wind not only cools us but also fills our sails. However, we hope that the strong north winds that have been blowing hard for the past month will return to seasonal norms.

We don't know if it's sabotage or human errors and waste, but the fires that break out hurt us deeply. And the news, "a forest the size of so many football fields burned. It's good that there was no loss of life!" How selfish it is to illustrate the size of the burned forests with football fields or to not consider the trees burned as living beings.

With the arrival of summer, our traditional Thursday concerts have also started. This year, we will introduce you to special voices. Fun is guaranteed. Who will be there? We have shared the entire summer concert program on our social media accounts. For those who haven't seen it yet, let me repeat.

20 June Thursday-21:30-Teos Marina Festival Area – Evrencan GÜNDÜZ

4 July Thursday - 21:30 - Teos Marina Festival Area – Can ÇOX

18 July Thursday - 21:30 - Teos Marina Festival Area – Haluk LEVENT

1 August Thursday - 21:30 - Teos Marina Festival Area - SATTAS

15 August Thursday - 21:30 - Teos Marina Festival Area – Fatma TURÇUT

29 August Thursday - 21:30 - Teos Marina Festival Area – Sena ŞENER

Experience sparkling coves in the Aegean Sea with

TEOS
MARINA
⚓⚓⚓⚓⚓

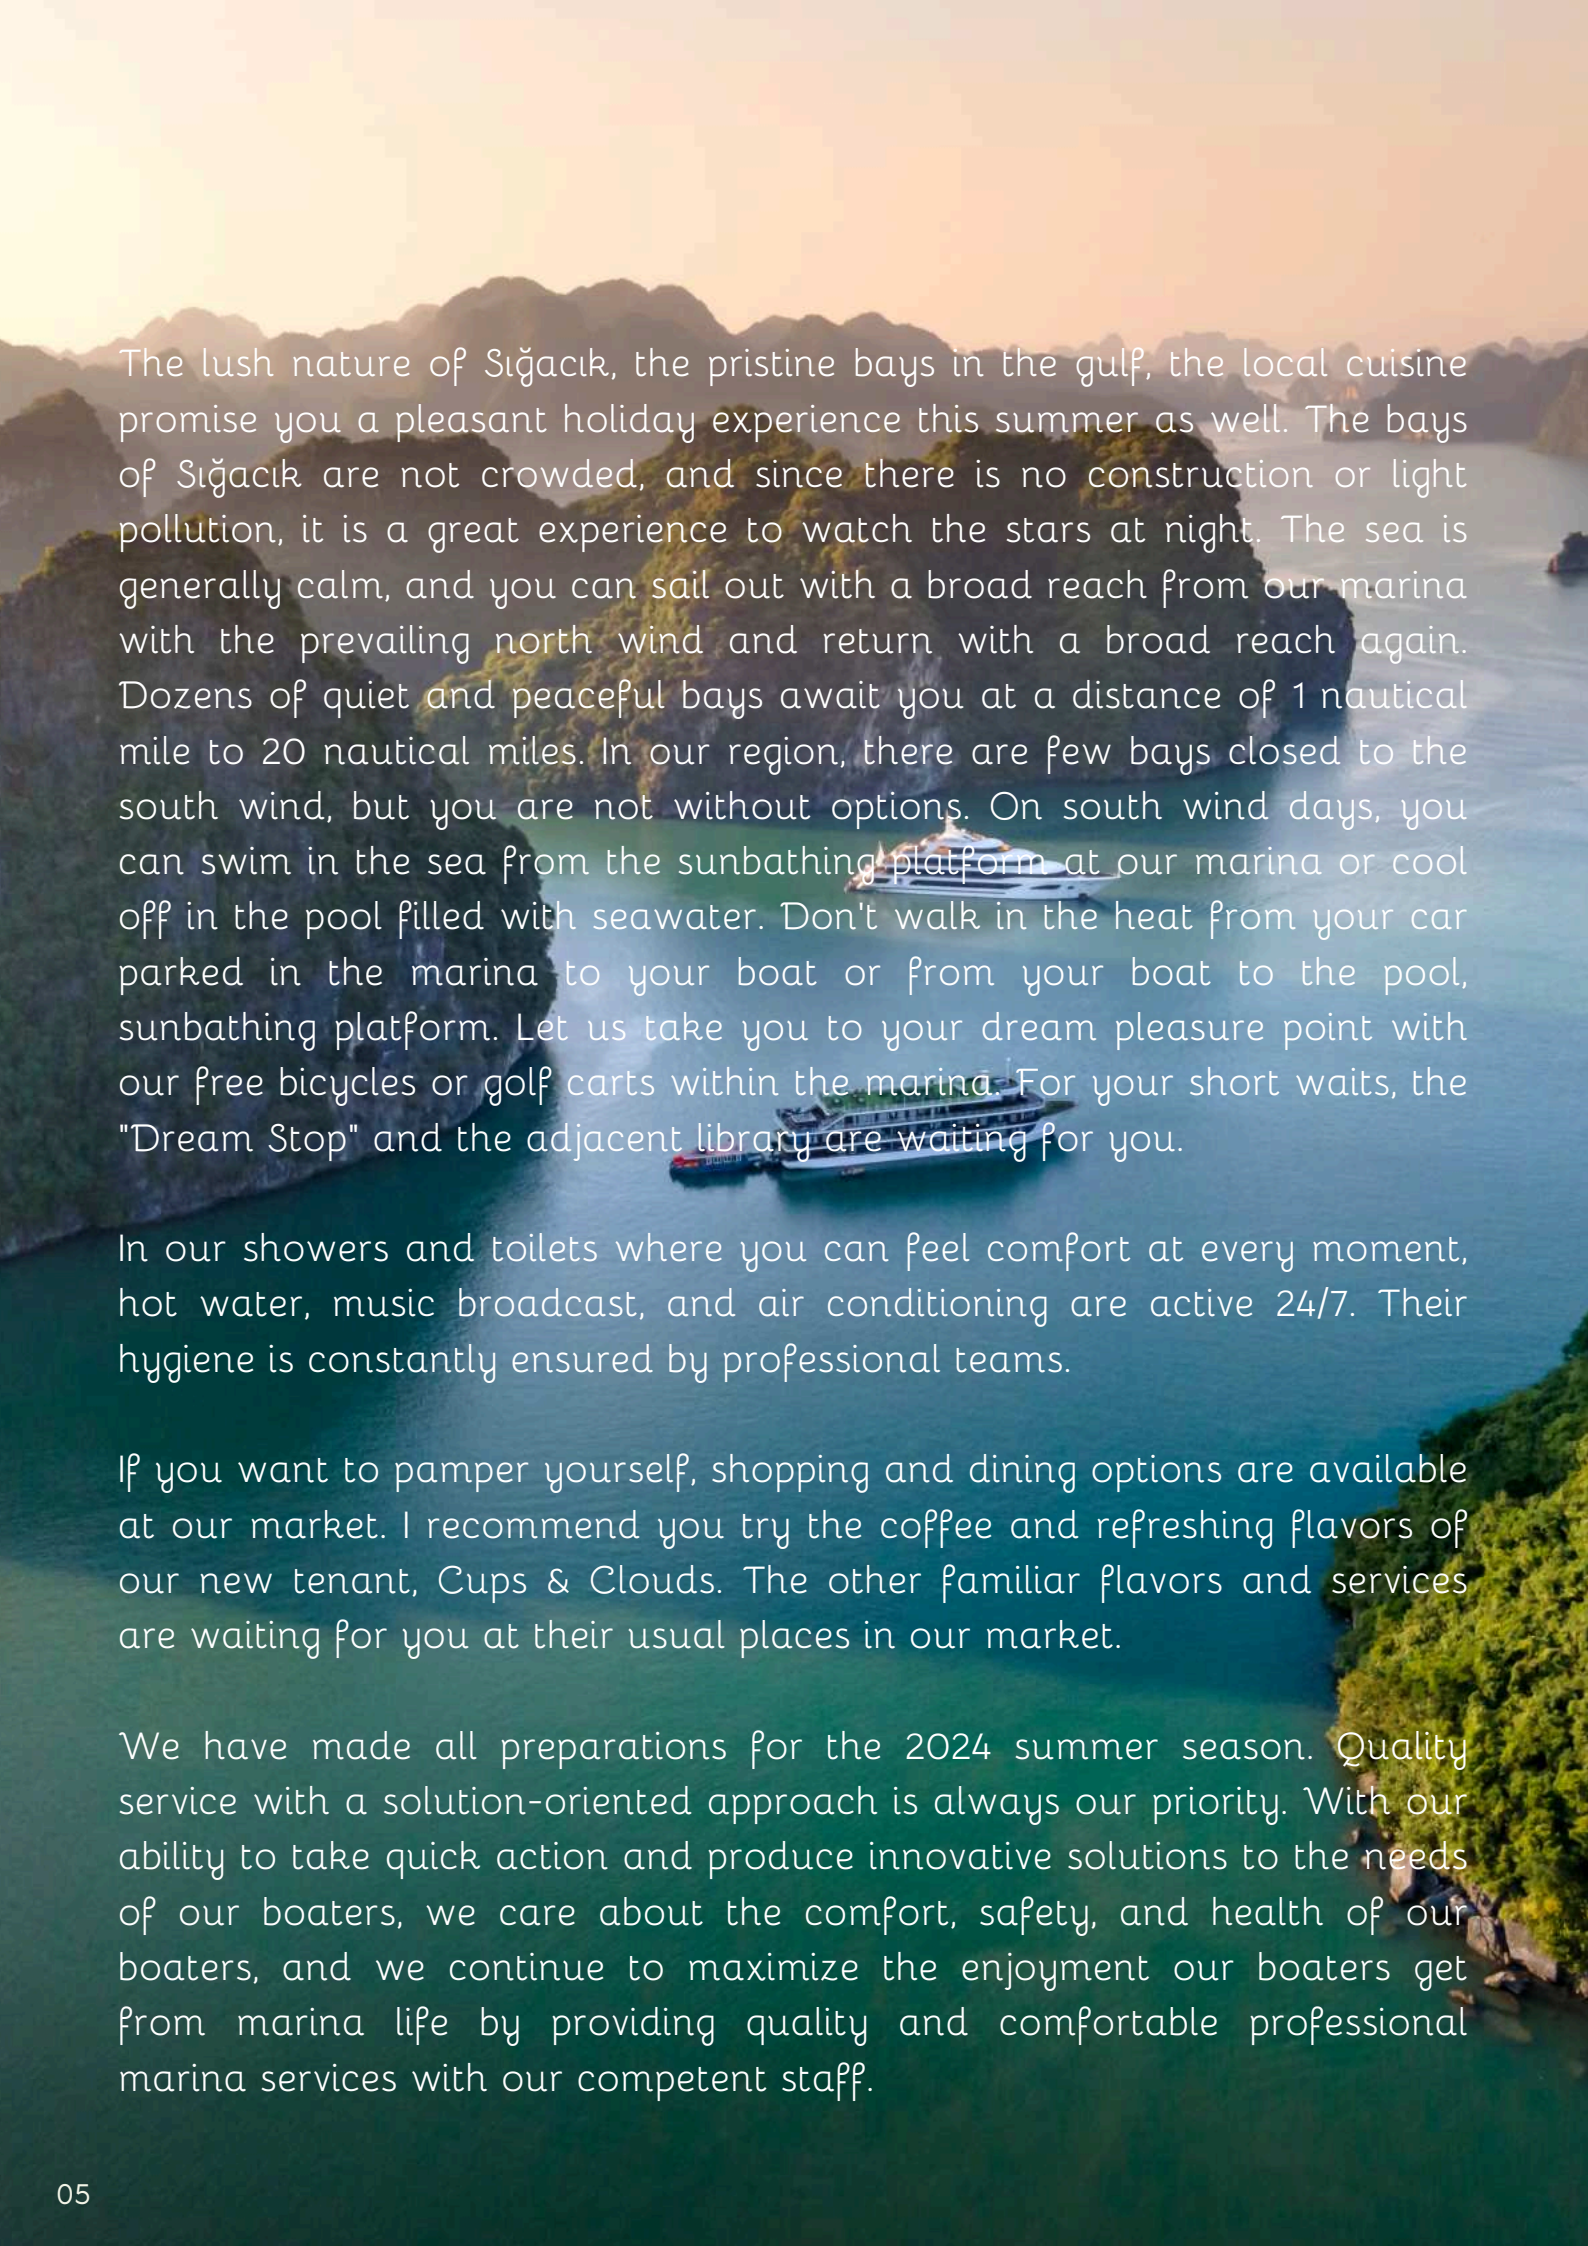

During the holiday period, with the administrative holiday being extended to 9 days, our marina was filled with holidaymakers. Although the strong north winds negatively affected the number of boats setting sail, our market area was very crowded with visitors. During the holiday, the ferry's seats between Siğacık - Teos Marina and Samos island were always full. Thousands of our citizens experienced Samos island. We heard from the national media that the most preferred destination was Greece's Samos island. Honestly, Samos, with its unspoiled green nature, is also my first choice among Greek islands. In those days, social media was filled with posts by our citizens about affordable meals, clean seas, and unspoiled nature on the Greek islands. On the other hand, our national media was reporting on the increased population in coastal cities, water shortages, disrupted waste collection services, high beach entrance fees, the price of "lahmacun" in Bodrum, and how dirty picnic areas and beaches were left. I hope that one day our local and national media will stop making news based on personal interests and policies or hollow magazine stories and start making real news. They should highlight the lack of tourism policy in our country, our inability to educate, the differences in access to clean food, and the happiness and peace differences between the people on both sides of the Aegean Sea. It is truly sad that some journalists see themselves as very strong, wielding swords around or that highly followed social media influencers can make unfounded claims about people or institutions without questioning, investigating, or consulting. As long as we have citizens who have opinions without knowledge, it is only natural to call the one-eyed man "king" in the land of the blind.

We continue our renovations and innovations to improve the quality of the services we offer you. In the second half of June, we renewed our WC and changing cabin behind the sunbathing platform. Since our order for a no-smoking sign inside the WC and changing cabin was not delivered yet, we couldn't put it up, and we were saddened to see that cigarettes were smoked and extinguished on the floor on the first day. The rules sign at the entrance of our sunbathing platform, which has limited capacity, states that guests cannot be brought in to serve all our boaters without congestion. We want you to know that we will remove guests from the sunbathing platform as we identify them. Are you aware of how many warning and caution signs there are around us? It saddens me to put up so many warning signs. However, it is also sad that the result does not change despite this. We receive service from a canal opening vehicle 2-3 times a week due to toilet paper thrown into the toilets in the marina, causing blockages. During this time, we have to stop the use of the toilet for 1-2 hours. Due to very poor usage by Siğacık residents and visitors, we had to limit our market toilet to the customers of our tenants. Despite the legal regulations regarding waste oil, the notices on our bulletin boards, and our repeated warnings, we regretfully encounter waste oils poured into or left beside the garbage stations. It is essential for all parties within our marina to comply with the operating regulations for our mutual peace. Please read it to avoid facing penal situations in the regulations.

We have one more news for you. As of July, the installation of awnings over the parking areas along the "C" quay and the green area on the market side will start and be completed within a few weeks. Your cars will now also be able to stay comfortably at Teos Marina.

A scenic view of a bay with steep, forested cliffs and a small boat on the water. The water is a deep blue-green, and the sky is a soft, hazy orange from the setting or rising sun. The cliffs are covered in lush green vegetation. A small boat with a white cabin and a red hull is visible in the middle ground, moving across the water. The overall atmosphere is peaceful and serene.

The lush nature of Siğacık, the pristine bays in the gulf, the local cuisine promise you a pleasant holiday experience this summer as well. The bays of Siğacık are not crowded, and since there is no construction or light pollution, it is a great experience to watch the stars at night. The sea is generally calm, and you can sail out with a broad reach from our marina with the prevailing north wind and return with a broad reach again. Dozens of quiet and peaceful bays await you at a distance of 1 nautical mile to 20 nautical miles. In our region, there are few bays closed to the south wind, but you are not without options. On south wind days, you can swim in the sea from the sunbathing platform at our marina or cool off in the pool filled with seawater. Don't walk in the heat from your car parked in the marina to your boat or from your boat to the pool, sunbathing platform. Let us take you to your dream pleasure point with our free bicycles or golf carts within the marina. For your short waits, the "Dream Stop" and the adjacent library are waiting for you.

In our showers and toilets where you can feel comfort at every moment, hot water, music broadcast, and air conditioning are active 24/7. Their hygiene is constantly ensured by professional teams.

If you want to pamper yourself, shopping and dining options are available at our market. I recommend you try the coffee and refreshing flavors of our new tenant, Cups & Clouds. The other familiar flavors and services are waiting for you at their usual places in our market.

We have made all preparations for the 2024 summer season. Quality service with a solution-oriented approach is always our priority. With our ability to take quick action and produce innovative solutions to the needs of our boaters, we care about the comfort, safety, and health of our boaters, and we continue to maximize the enjoyment our boaters get from marina life by providing quality and comfortable professional marina services with our competent staff.

TEOS MARİNA BLUE NEWS

TEOS MARİNA STARTS THE SUMMER OF 2024 WITH MUSIC IN SİĞACIK

Teos Marina continues to be an ideal living center for both local and foreign guests with its quality services and location. The Teos Marina Market, which has become even more enjoyable with the addition of the Cups & Clouds coffee chain, is becoming a center of attraction for thousands of music lovers with the traditional Teos Marina Market Concerts. The free public concerts held every Thursday for 7 years without interruption have turned the Teos Marina Market into a music festival. In the summer of 2024, the Teos Marina Market stage, which hosted Evrencan Gündüz on June 20, will be colored by performances of beloved artists such as Can Cox on July 4, Haluk Levent on July 18, Sattas on August 1, Fatma Turgut on August 15, and Sena Şener on August 29.

TEOS MARINA BLUE NEWS

Teos Marina General Manager Faruk Günlü said about the event: "This year, in our 8th year, we are excited to bring thousands of music lovers together with our artists at the Teos Marina Market concerts for free on Thursdays. As Teos Marina, our goal is to provide our guests with an unforgettable summer season by combining our quality service approach with music and entertainment. We invite all music lovers to have fun at the Teos Marina Market Concerts, where we will bring together thousands of visitors from the local community and surrounding provinces and districts for free." With the summer concerts to be held this year, ferry services, hosting hundreds of boats, seawater pool, and quality businesses in its market, Teos Marina will continue to be a center of attraction where thousands of people have a good time as always. We recommend following the @teosmarinaofficial Instagram account to instantly follow the exciting events happening at Teos Marina.

TRAINING IS ESSENTIAL FOR SERVICE EXCELLENCE WITH OUR STRONG TEAM!

With our quality and reliable service policy, we aim to offer you the best experience. The greatest contribution to achieving this goal belongs to our friendly, proactive, and solution-oriented staff.

Before the season, another training process was successfully completed for our team to further strengthen our marina's solid structure and the service quality we offer you. Training sessions meticulously planned and conducted to ensure that Teos Marina staff always provide the highest standards of service.

The training provided by Gülhan Berkman Yakar, who has extensive knowledge and experience in career coaching and personal development, was very productive.

At Teos Marina, we know that each of our employees is valuable and that with their contributions, our marina becomes even stronger. Our team works day and night to ensure that our guests have the most enjoyable and problem-free time at the marina. We are constantly improving ourselves to provide you with the best service. We are proud to make you feel the strength of Teos Marina with our professional and friendly team, offering the best possible service to our valued guests. We are here to make every moment you spend at Teos Marina unforgettable and perfect.

TEOS MARİNA CONCERTS: A THRILLING START WITH EVRENCAN GÜNDÜZ

Teos Marina, with its unique atmosphere in Sığacık, started the summer season of 2024 with a music-filled beginning. In the opening concert held on June 20, Evrencan Gündüz took the stage, enchanting the audience with his talent and energy.

The Teos Marina Festival Area was met with great interest for Evrencan Gündüz's concert. The enthusiasm of the crowd peaked with the participation of music lovers of all ages. The concert, held in a magnificent atmosphere, not only hosted marina residents but also visitors from surrounding provinces. The concert area was filled with the energy of hundreds of music lovers, and Evrencan Gündüz's performance on stage received a round of applause. Evrencan Gündüz, who has been involved in music from a young age, is considered one of the young talents in jazz and blues music. The artist, who stands out with his energetic and sincere performance on stage, offered the audience an unforgettable night with his unique style and impressive voice. Evrencan Gündüz received full marks from the audience with his mastery and naturalness on stage.

GREAT SUCCESS FROM TURKISH ATHLETES AT THE EUROPEAN CHAMPIONSHIPS IN WATER SPORTS

In the European Water Sports Championships held in Belgrade, Serbia, Turkish swimmers achieved a historic success. Talented swimmers of Fenerbahçe Sports Club made our country proud by winning a total of four medals in the tournament.

Emre Sakçı and Kuzey Tunçelli won gold medals by displaying outstanding performances in the competitions. At the same time, Deniz Ertan, Ecem Dönmez, Zehra Duru Bilgin, and Gizem Güvenç also won bronze medals, achieving great success. With these results, Turkish swimmers showcased an impressive performance on the international stage.

Uğur Orel Oral, the Swimming Branch Manager of Fenerbahçe Sports Club, stated that they are very proud of their athletes' success. These medals won at the European Championships once again highlighted Turkey's rising graph in water sports.

TEOS MARINA BLUE NEWS

SUPPORT FROM TEOS MARINA FOR TUNA TUNCA'S ENGLISH CHANNEL CROSSING

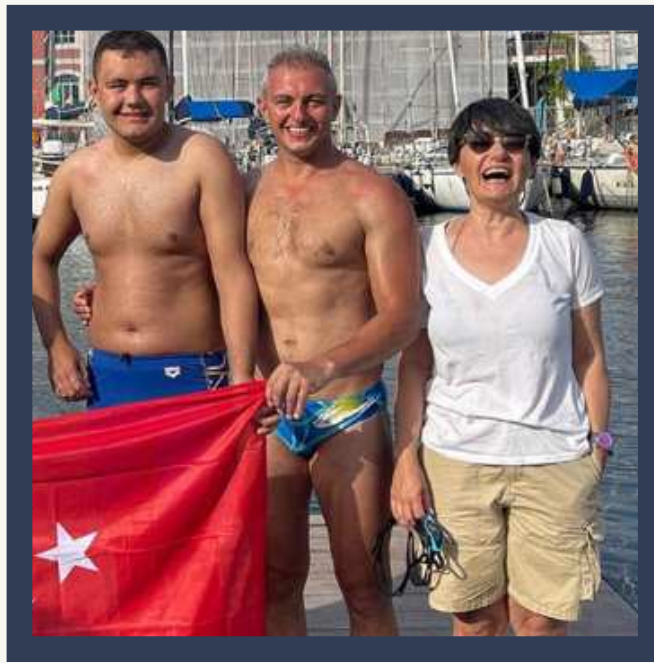

Autistic swimmer Tuna Tunca is preparing to cross the English Channel. The 19-year-old Tuna from Izmir continues his training with the support of Teos Marina. Teos Marina became a sponsor by providing boat support for Tuna's training and contributed to the success of the young athlete.

In recent months, Tuna made history by swimming the 36-kilometer distance from Italy's Capri Island to the city of Naples. Aiming to raise awareness of autism with this achievement, Tuna has also completed many significant swimming crossings both in Turkey and internationally. Tuna, who swam the 11.5-kilometer distance from Greece's Chios Island to Çeşme, completed this crossing in 2 hours and 44 minutes, achieving great success.

Tuna's mother, Gülnur Tunca, emphasized how happy Tuna's progress and achievements in sports make him. Tuna's coach, Mert Onaran, stated that Tuna is very suitable for open water swimming and that preparations for the English Channel crossing are continuing intensively.

With the support of Teos Marina, Tuna aims to be a great inspiration for autistic individuals by crossing the English Channel. This support makes Tuna's training more efficient and helps him achieve his big goals.

Tuna Tunca's achievements are of great importance in showing what autistic individuals can achieve, and Teos Marina's support plays a significant role in increasing social awareness.

CHOOSING YOUR HOME AT SEA:

DUEL OF MOTOR YACHT, SAILBOAT, AND CATAMARAN

FOR THOSE PASSIONATE ABOUT THE SEA, THE DREAM OF OWNING A BOAT IS AN EXCITING JOURNEY. HOWEVER, CHOOSING WHICH BOAT IS BEST FOR YOU CAN SOMETIMES BE CHALLENGING. DIFFERENT TYPES OF BOATS LIKE MOTOR YACHTS, SAILBOATS, AND CATAMARANS CATER TO VARIOUS NEEDS AND PREFERENCES. IN THIS ARTICLE, WE WILL EXAMINE THE ADVANTAGES AND DISADVANTAGES OF EACH TYPE OF BOAT IN DETAIL TO HELP YOU MAKE THE RIGHT CHOICE.

Motor Yacht: The Only Choice for Speed Enthusiasts

Motor yachts are ideal for sea enthusiasts seeking speed and comfort. Generally preferred by those active in the business world, who value time and enjoy speed, motor yachts offer a luxurious travel experience by covering long distances in a short time with their powerful engines and spacious living areas.

Advantages:

- **Speed and Power:** Motor yachts can reach high speeds thanks to their powerful engines. They are ideal for those who want to cover long distances in a short time, reaching speeds of 30-50 knots.
- **Easy Maneuverability:** Dual-engine designs provide easy maneuverability in harbors and narrow areas. Thruster systems offer additional control.
- **Comfort:** Motor yachts typically have spacious interiors, offering comfortable living spaces. Large salons, wide decks, and luxurious amenities are common. Air conditioning, generators, and other comfort equipment are standard.
- **Independence:** The ability to move regardless of wind conditions provides an advantage for planned trips.

Disadvantages:

- **Fuel and Electricity Consumption:** Motor yachts consume more fuel compared to other types of boats. A 40-foot motor yacht can consume 100 liters of fuel per hour. Electricity consumption is also quite high in motor yachts.
- **Environmental Impact:** High fuel consumption and engine emissions can have negative effects on the environment.
- **Maintenance Costs:** Engines and mechanical components require frequent maintenance, which can be costly. Regular engine maintenance, generator service, and other mechanical checks are necessary.

Sailboat: For Those Who Want Silent Sailing with the Power of the Wind

Sailboats offer the opportunity for silent and eco-friendly sailing using the power of the wind. Perfect for those seeking an economical and nature-integrated experience, sailboats are generally preferred by those who love being close to nature, are environmentally conscious, and are passionate about sailing sports.

Advantages:

- **Economic:** Sailboats have very low fuel costs as they use wind power for movement. Sailing only requires minimal fuel consumption for motor use.
- **Eco-friendly:** They have minimal environmental impact as they operate with wind energy.
- **Sailing Pleasure:** Sailing is a great source of pleasure and satisfaction for sea enthusiasts. An average speed of 6-8 knots can be achieved.
- **Silence:** Traveling without engine noise provides a more integrated experience with nature.

Disadvantages:

- **Speed Limit:** Sailboats move slower compared to motor yachts and are dependent on wind conditions. Average cruising speeds range from 6-8 knots.
- **Maneuvering Difficulty:** Maneuvering in harbors and narrow areas is more challenging and requires more experience. Maneuverability is limited in single-engine sailboats.
- **Layout:** Sailing equipment and masts can limit living spaces and reduce comfort levels. Deck area is generally narrower.

Catamaran: Double Comfort in Two Hulls

Catamarans are ideal for long stays and comfortable cruises with their wide spaces and stable cruising capabilities. Thanks to their twin hulls, they offer a more stable and comfortable sea experience. Catamarans, usually preferred by those who love to travel with large families or groups of friends, are indispensable for those seeking comfort and stability.

Advantages:

- **Stability:** They are more stable due to their twin hulls and experience less rocking even in rough seas. They can remain stable even under 15-20 knot winds.
- **Spacious Area:** They offer a wide deck area and larger living spaces between the two hulls. Ideal for long-term stays. An average 40-foot catamaran offers a 20-foot wide deck.
- **Shallow Waters:** Catamarans can anchor closer to shallow waters and beaches due to their lower draft. The average draft is 3-4 feet.
- **Energy Efficiency:** Catamarans that utilize the wind well can be economical in terms of fuel consumption. They can meet their energy needs with solar panels and wind generators.

Disadvantages:

- **Cost:** Catamarans are generally more expensive compared to other types of boats. Purchase and maintenance costs are high.
- **Mooring and Docking:** Due to their larger size, they can be difficult to moor and dock in harbors and marinas. A 40-foot catamaran usually takes up the space of two motor yachts.
- **Slowness:** Sailing catamarans generally move slower compared to motor yachts, depending on wind and sea conditions. Average cruising speeds range from 8-10 knots.

TEOS MARİNA'NIN RENKLİ YÜZÜ: ARDA HACARLIOĞLU

INTERVIEW

We talked with Dt. Arda Hacırlıoğlu, a guest of Teos Marina known for his successful professional life, about how his passion for the sea began, his experiences at Teos Marina, the values that sea life has added to him, and how he balances his professional life with sailing.

DT. ARDA HACARLIOĞLU

Arda Bey, hi! We are very happy to host you in our magazine this issue. Thank you for accepting our interview offer. Let's start with a classic; can you tell us a bit about yourself?

Arda Hacıoğlu: Hi! First of all, thank you for this kind invitation. I was born in Trabzon in 1985. After graduating from İzmir Atatürk High School in 2003, I got into the Faculty of Dentistry at Ege University. I also completed the Health Management program at Anadolu University and the Business master's program at Bilgi University. I founded my first clinic in 2011, and now I work as both a dentist and a manager in our clinics with 5 branches. I am married and have three children.

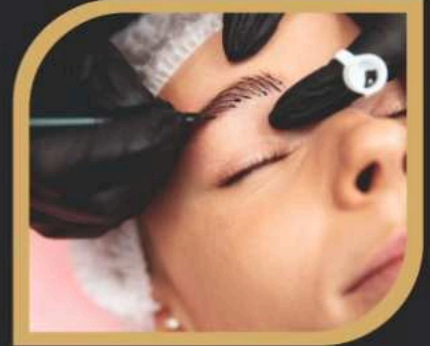

When and how did you decide to become a dentist? What factors directed you to this profession?

Arda Hacıoğlu: Actually, the biggest factor in becoming a dentist was my mother ☺ The story goes like this: After graduating from high school in 2003, I got a ranking of about 9,000 in the university exam. But my real dream was to study Industrial Engineering or Business. I wanted Koç, Sabancı with a scholarship, or Boğaziçi University. I needed to be in the top 3,000. I didn't make any choices in the first year and wanted to try again with more study in the second year. However, my family was not happy with this situation. Despite studying harder in the second year, I got the same ranking in the exam. My mother's biggest insistence was that I become a doctor or a dentist. I couldn't refuse her and wrote down 17 engineering preferences and one dentistry. Then I became a dentist. It was the best decision I made in my life thanks to my mother.

Ayla Karadeniz Güzellik & Estetik

How did the process of establishing Dent35 Oral and Dental Health Clinics develop?

Arda Hacıoğlu: My partner Onur Yedikara and I were classmates. We had a dream from our student years. We were constantly making future plans at that time. After graduation and military service, we worked in different places for a year and gained experience. At the end of 2010, we started our initiatives and opened our first clinic at the beginning of 2011.

Mr. Onur is also one of the residents of Teos Marina. We had a pleasant interview with him in previous issues. What does life on the boat mean to you? What moments do you enjoy the most on the boat?

Arda Hacıoğlu: Life on the boat for me is like transitioning to a completely different world, away from the intense pace. Leave me on the boat, I can spend my life there. I can't live away from the sea. It's my passion. But we have to work to sustain our life in a social world. Therefore, whenever I find time, we spend time on the boat with the family on weekends and holidays. The moments I enjoy the most on the boat are watching the sunset in a bay with my children and my wife and chatting. At that moment, I sometimes wish time would stop.

We think someone as versatile as you must have different hobbies or interests.

Arda Hacıoğlu: I have a passion for motorcycles. We have two big motorcycles that we use at home. In my spare time, I play the piano. I am a social person. I also love using social media. I actively use it. I share funny reels related to my profession and life on social media.

We also follow your social media posts closely and laugh a lot! :) It is an admirable skill to follow trends so closely and adapt them to your profession. For those who want to check it out, be sure to follow @dt.arda_hacıoglu on Instagram!

Is it difficult to combine life on the boat and your profession as a dentist? How do you balance work and hobbies?

Arda Hacıoğlu: Owning a boat is a very expensive hobby. Therefore, they have to be together ☺ Of course, I do it because I love my profession. When you do a job you love, you earn more efficiently. Outside of my clinic days, I enjoy spending time on my boat. I have to balance my work and hobbies.

Does your family enjoy the sea as much as you do?

Arda Hacıoğlu: The kids love it, but I had a bit of trouble with my wife ☺ She struggled a lot at first, but now she loves it too. Of course, life on the boat is not as comfortable as at home. Electricity and water are within limits. For someone who doesn't know boat life, it can take time to get used to it.

What are your favorite cruising routes with your boat? Do you have unforgettable memories in these routes?

Arda Hacıoğlu: Due to the size of our boat, we have mostly explored the Aegean Sea region. Of course, the bays in the Teos region make us the happiest. In the coming years, we want to enlarge our boat and explore the Mediterranean region. Probably my most unforgettable memories are from our novice days when we tried to stabilize the boat in the bay. The worry of anchor dragging and the stress of tying up stern-to-shore were always stressful.

“We use Teos Marina as if it were our summer home. The staff and management are very attentive. Not only that, but the marina area is bustling year-round. In the evenings, after mooring the boat, we enjoy our tea and coffee while the children run around in the marina park.”

Can you tell us a bit about your lifestyle on the boat? What are the challenges and advantages of living on a boat?

Arda Hacıoğlu: We are a family of five. We use a two-cabin motor yacht. We usually come on Friday evening and stay on the boat until Sunday. The hardest part of living on a boat is the limited living space. You have to live everything planned. If you are going on a long trip or staying in a bay, you must use your water and food carefully. Despite all the difficulties, the best part is feeling free in the vast blue sea.

How are your relationships with other boat owners at Teos Marina? Are there any interesting people or events you have met or intersected stories with at the marina?

Arda Hacıoğlu: Everyone here is very friendly, we are like a big family living in a large site. We have neighbors we met here. We also had friends who were already here before we came. We already raft up with their boats while going to the bay and spend time together. We celebrated our birthdays, anniversaries, all together at this marina. We have collected many memories. We want to raise our children in this environment for many years.

As Teos Marina, we are very happy to host you and your family in our marina and magazine. Thank you for this pleasant conversation, Mr. Arda.

Arda Hacıoğlu: Thank you.

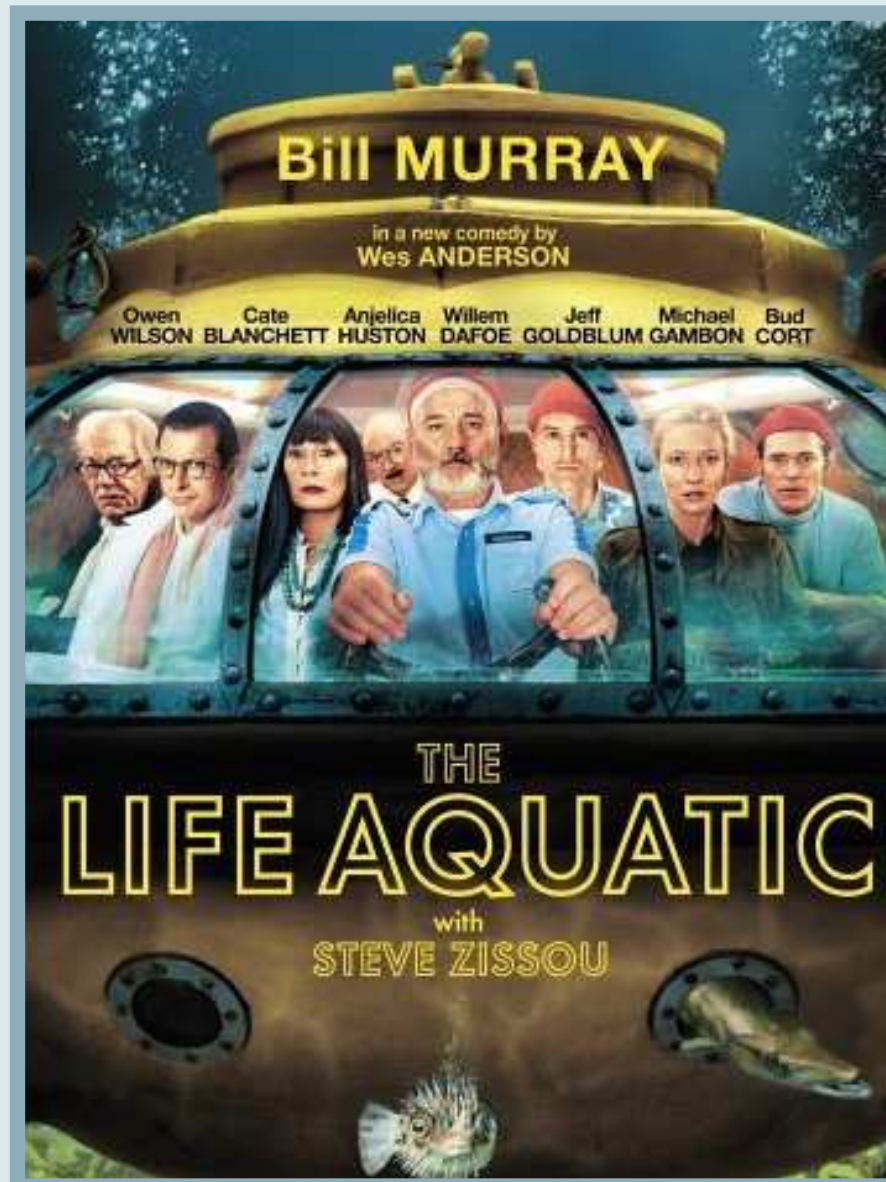

Movie of the Month

"LIFE AQUATIC"

Approaching the world of maritime with a humorous perspective, this film bears the signature of famous director Wes Anderson. "The Life Aquatic with Steve Zissou" tells the story of ocean explorer and documentary filmmaker Steve Zissou (Bill Murray). When Steve Zissou's crew member is killed in a shark attack, he sets out on a journey for revenge. During this journey, various characters accompany him, including his ex-wife (Anjelica Huston), a journalist (Cate Blanchett), and his possible son (Owen Wilson). The film humorously portrays Zissou's absurd and adventure-filled journey, the dynamics within the crew, and the unusual creatures they encounter underwater. Reflecting Wes Anderson's unique style, the film stands out with its colorful set designs, original characters, and unforgettable music. "The Life Aquatic with Steve Zissou" offers viewers a fun and thought-provoking experience by combining maritime-themed comedy and drama. This film could be a great choice for our readers interested in maritime stories. With its humorous narration and interesting characters, it promises to look at the world of the sea from a different perspective.

Galley Recipes

TUNA AND CHICKPEA SALAD

Practical and filling recipe

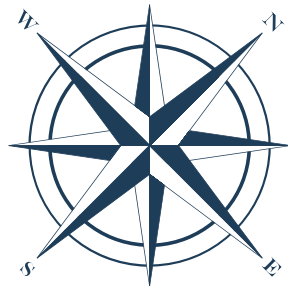

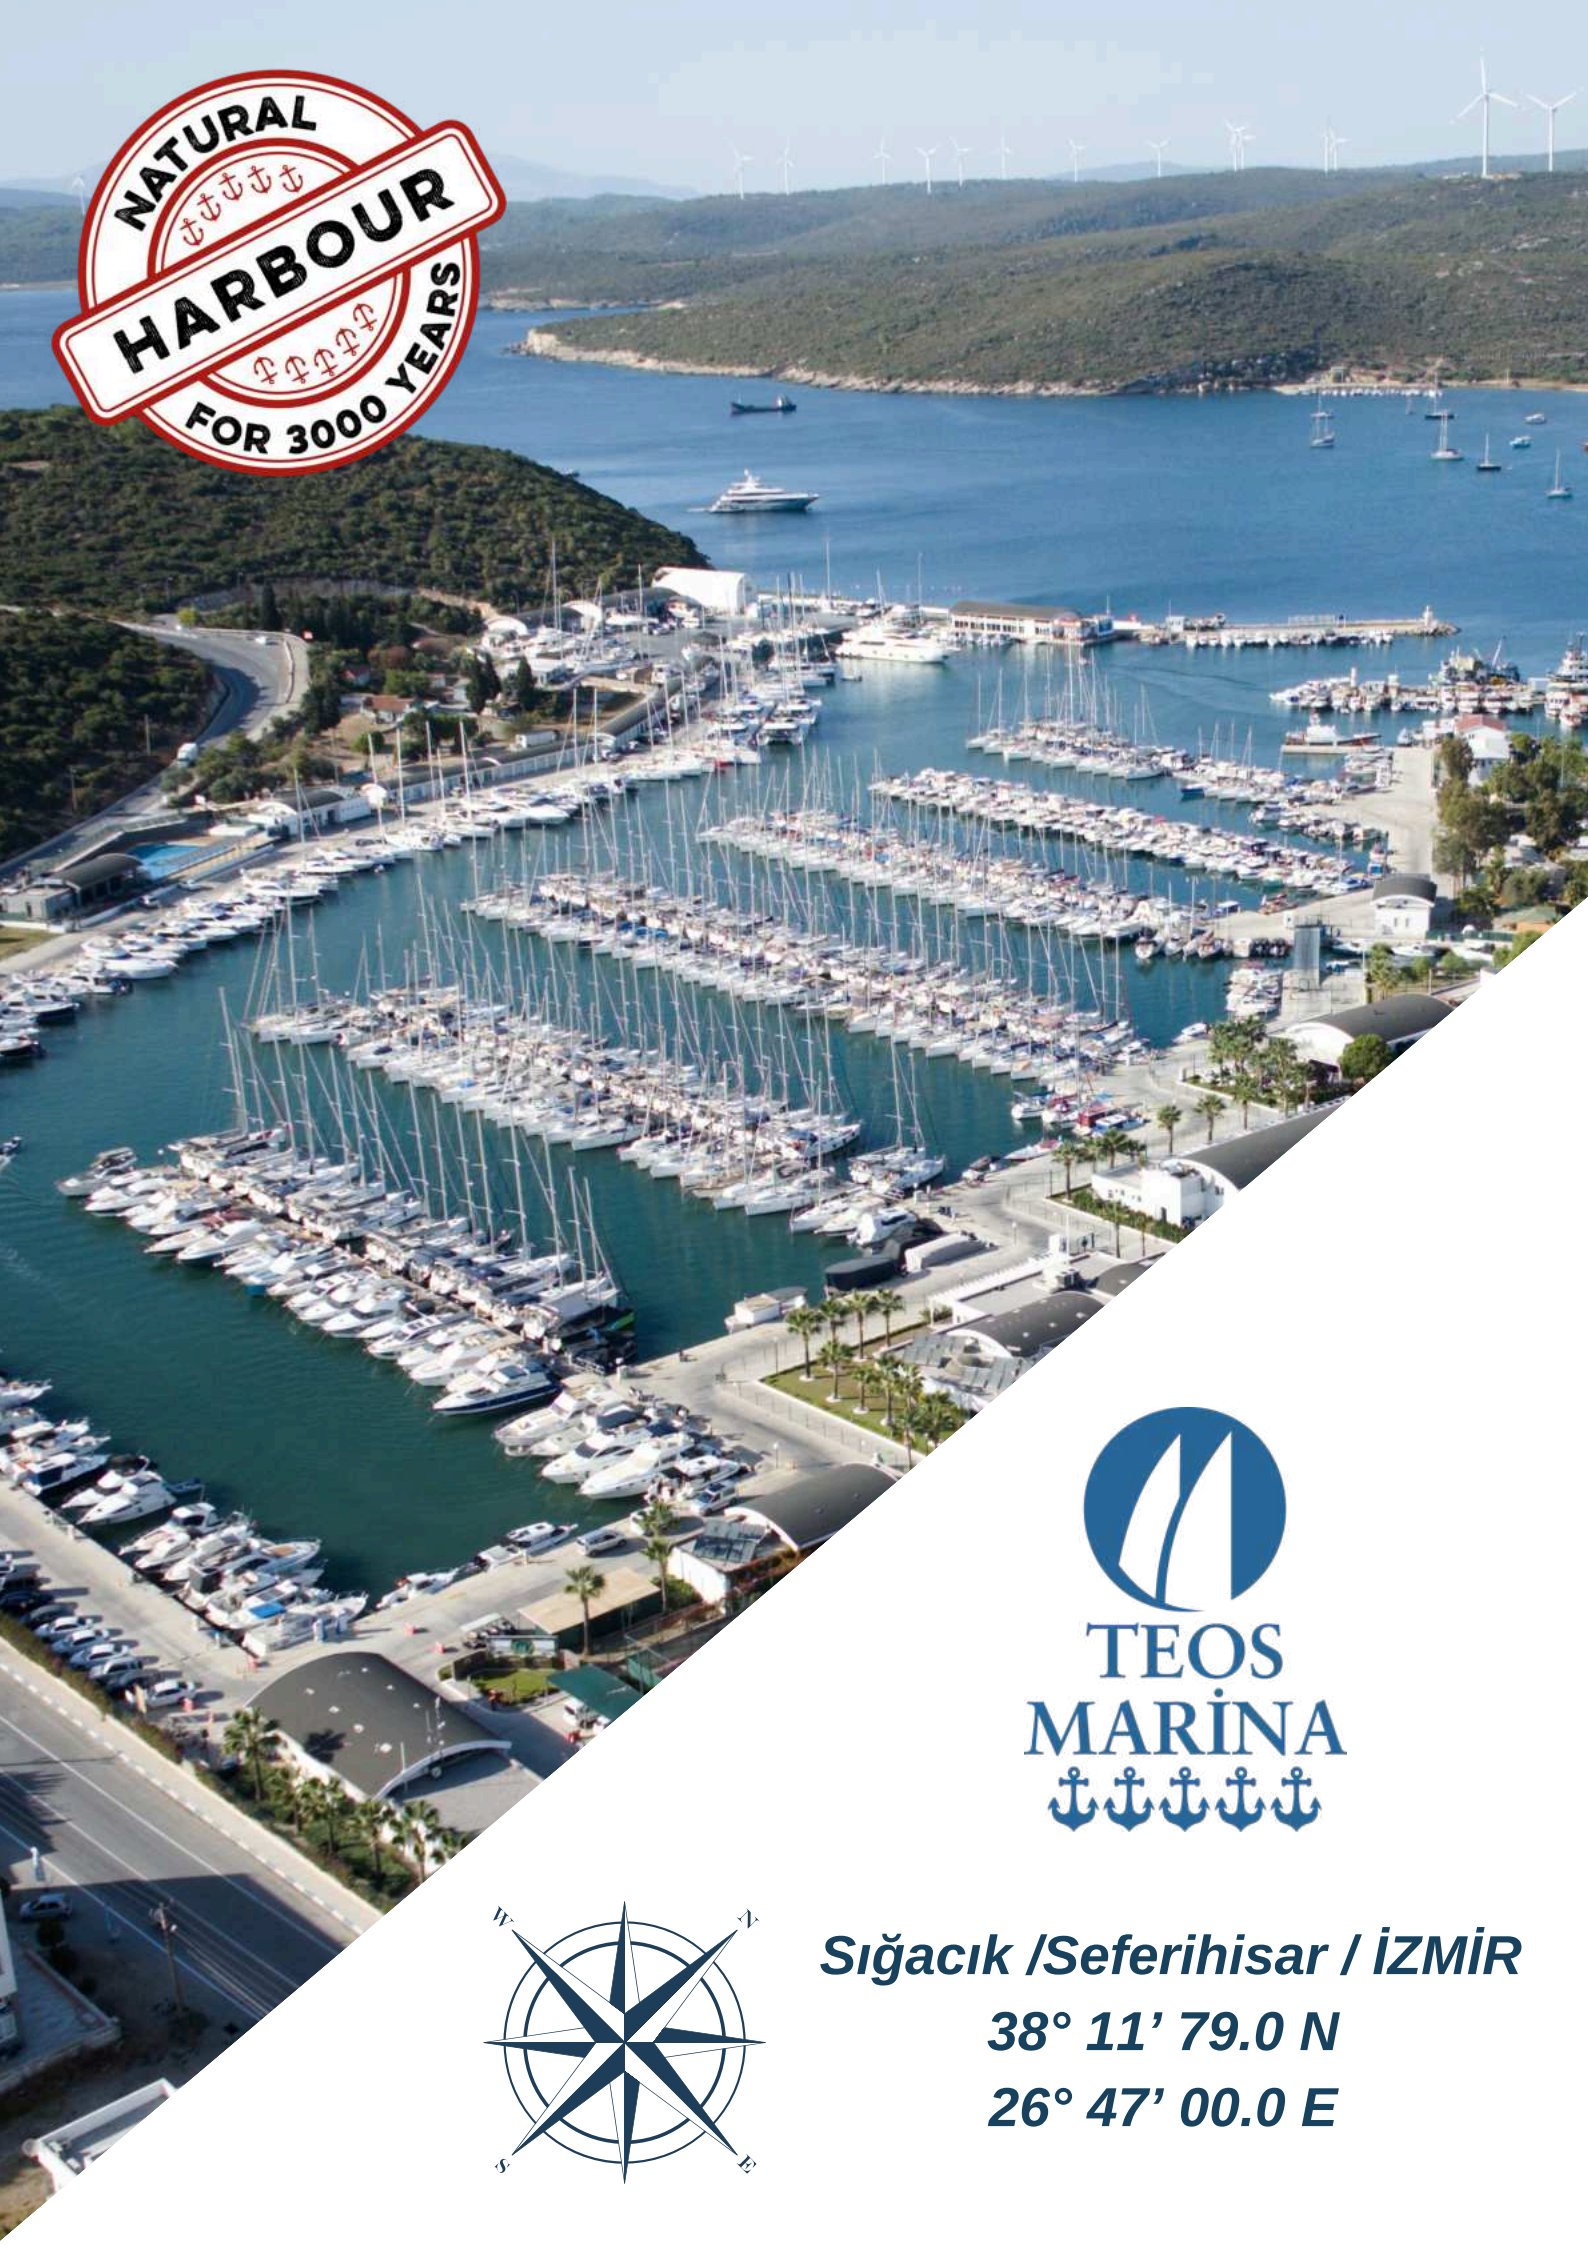

Ingredients

- 1 can of tuna (drained)
- 1 cup of boiled chickpeas
- 1 small red onion (finely chopped)
- 1 handful of cherry tomatoes (halved)
- 1 handful of chopped cucumber
- 1/4 cup of chopped black olives
- 1/4 cup of chopped parsley
- Juice of 1 lemon
- 2 tablespoons of olive oil
- Salt and pepper (optional)

Preparation

1. In a large mixing bowl, combine tuna, boiled chickpeas, chopped red onion, cherry tomatoes, cucumber, black olives, and parsley.
2. In a separate small bowl, mix lemon juice, olive oil, salt, and pepper.
3. Pour the prepared dressing over the salad and mix all the ingredients well.
4. Let the salad sit in the refrigerator for about 10-15 minutes to allow the flavors to meld.
5. When serving, you can sprinkle some fresh parsley on top if desired.

Bon Appetit!
